University of Recoletos De Bacolod
Apr 2023
- **Bachelor of Science in Computer Science (College)**
North Negros College
Apr 2007 - May 2011

Skills

PHP/Laravel (9 years +)

Node.js (7 years +)

GO (3 years +)

Python (5 years +)

Vue.JS (5 years +)

React.JS (5 years +)

MongoDB (5 years +)

MySQL (12 years +)

PHP (12 years +)

REST APIs (9 years +)

Summary

I'm Romer, a software and web app developer with 12 years of experience in PHP and 9 years in the Laravel framework. I also have 3 years of experience with Golang. My expertise spans backend development using Laravel, Golang, and Node.js, as well as frontend technologies like Livewire, Vue.js, and React.js. I've worked extensively with Git for version control (BitBucket, GitHub) and database management, integrating MongoDB and MySQL. Additionally, I've led teams in third-party API integration projects, including Amazon Marketplace and Shopify development.

Work Experience

Senior & Full Stack Developer, G. O. Green Enterprises, Inc, 626 YLAC Ave. Bacolod City

April 2023 - Present

As a Senior Developer at a US-based e-commerce company specializing in plumbing supplies, I lead the integration of third-party APIs such as Amazon, eBay, and Houzz, overseeing the entire process from design to deployment. With over seven years of experience in **Laravel**, I build robust backend systems, leveraging Laravel's queues, caching, and Eloquent ORM to optimize performance and scalability. My work focuses on automating data synchronization, managing large inventory feeds, and processing high transaction volumes efficiently.

In addition to API integrations, I develop custom solutions in **Laravel** for generating product sales reports and monitoring system health. I maintain databases with **MySQL** and **MongoDB**, ensuring data integrity and system reliability. On the frontend, I collaborate with my team to create responsive UIs using **Vue.js** and **React.js**, enhancing customer experience with intuitive and functional features. This stack—Laravel on the backend and Vue.js/React.js on the frontend—ensures a fully integrated, efficient, and scalable e-commerce platform.

Full Stack Web Developer, Codedaddy.ph

April 2012 - March 2023

This role has been my most transformative and longest-running experience as a web application developer. I started as a junior developer, spending my first three years mastering frontend development using **HTML5**, **CSS3**, **Bootstrap**, and **JavaScript** (including **jQuery** and **AJAX**), which allowed me to build responsive and interactive user interfaces.

GraphQL (3 years +)

Git/GitHub (9 years +)

AWS/Azure (5 years +)

Team Leader (5 years +)

Redis (3 years +)

Leadership

Critical Thinking

Languages

English

As I advanced, I took on more complex backend responsibilities and was promoted to a senior role. This transition allowed me to focus on **Laravel**, where I developed scalable, high-performance backend systems. I led **REST API integrations** with platforms like **Amazon**, **eBay**, and **Houzz**, ensuring smooth data exchange and system synchronization.

This experience has shaped me into a versatile full-stack developer, proficient in both **frontend** and **backend** technologies. By leveraging my **Laravel** expertise alongside my frontend skills in **Vue.js** and **React.js**, I've been able to deliver end-to-end solutions that enhance user experiences and optimize the overall system performance.

Junior Software Developer, Llevante Outsourcing

May 2011 - June 2012

With over a year of experience in PHP, Joomla, and VB/C#.NET, I specialize in content management, custom application development, and system integration. My expertise includes creating tailored Joomla extensions, building robust web and desktop applications using VB/C#.NET, and implementing seamless integrations that enhance operational efficiency. I bring a versatile skill set, well-suited for dynamic environments like Llevante Outsourcing, where innovation and streamlined solutions are key to driving business success.

Hobbies

In my free time, I love immersing myself in music by playing the guitar, exploring nature and enjoying breathtaking views while hiking, and swimming to relax and stay fit. Additionally, I dedicate time to maintaining a healthy and active lifestyle by working out regularly at the gym. These hobbies not only help me unwind but also keep me physically and mentally refreshed.

Military Service

Air Force Reserve.

April 2009 - July 2011

As a member of the Air Force Reserve, I have demonstrated a strong commitment to serving my country while balancing the responsibilities of civilian life. My experience includes training in specialized roles, contributing to the readiness and operational success of the Air Force during critical missions, national emergencies, and deployments. Through this role, I have honed leadership, discipline, and teamwork skills while maintaining technical expertise in my assigned duties. My dedication showcases my ability to adapt to dynamic environments, manage time effectively, and remain prepared to step into active service when called upon. This dual commitment reflects my deep sense of duty, resilience, and patriotism.

Volunteering

Youth Leader, Youth Blast

April 2010 - May 2011

As a youth leader, I have been dedicated to guiding and mentoring young individuals, helping them develop valuable life skills, build confidence, and foster positive relationships. My role involved organizing and leading activities, workshops, and community service projects, empowering youth to engage in meaningful ways with their peers and community.

Through this experience, I've cultivated leadership, communication, and problem-solving skills while creating a supportive and inclusive environment. I have worked closely with both individuals and groups, providing guidance, encouragement, and direction to help them achieve personal growth and make positive contributions to society. My role as a youth leader has reinforced my passion for mentorship and community-building, and has instilled a strong sense of responsibility and empathy.
